SUBJECT INDEX, VOLUME 49

Abdominal compartment syndrome
  extraperitoneal injuries and, case reports, 744
  intra-abdominal hypertension and, in burn patients, 387
Abdominal perfusion pressure, intra-abdominal hypertension assessment and, 621
Abdominal trauma
  blunt
    emergent extra-abdominal surgery, abdominal screening in, 195
    liver/spleen, little/no intraperitoneal fluid on CT scan and, 505
    nonoperative management in multisystem trauma, 56
    pneumoretroperitoneum and pneumoperitoneum in, case report, 565
    small bowel trauma and, diagnosis, management and outcome of, 606
  penetrating
    gunshot wound to duplicate ureter and, ureteroureterostomy treatment, case report, 149
    hemosuccus pancreaticus after, case report, 948
Abuse, child, unsuspected, periportal tracking and myoglobinuria detection of, case report, 348
Acidosis, left ventricular power output maintenance during resuscitation and, 26
Air embolus, cerebral, 569
Airway compromise, facial fracture and, case review, 420
Airway control, prehospital, severe head injury and, 1065
American Association for the Surgery of Trauma, 60th annual meeting, abstracts, 373
Aminoglycosides, pharmacokinetics in critically ill trauma patients, 869
Amputation
  battlefield casualty management and, 930
  bilateral below-knee, prehospital, case report and literature review, 758
  lower extremity, calcaneal fillet of sole flap in, case report, 960
Anastomoses, stapled vs. hand sewn, small bowel injuries, 660
Angiography, penetrating periclavicular trauma and, 1029
Ankle, soft tissue reconstruction, extensor digitorum brevis rotational muscle flap for, 1012
Antibiotics
  perioperative, in penetrating hollow viscus trauma, 822
  susceptibility, pathogenic bacteria in intensive care units in a single hospital, 638
  systemic, local antibodies and, protective effects in burn wound infection, 873
Antithrombin therapy, sepsis and, current opinions, 979
Anus, shotgun injury to, continence restoration after, case report, 954
Aortic arch branches, blunt/penetrating trauma of, autopsy study, 696
Apoptosis
  hepatocyte, onset in trauma patient, case report, 542
  mucosal lymphocyte, after burn injuries, 710
Arteriovenous fistula
  traumatic, of superficial temporal artery, case report, 359
  traumatic vertebrojugular, case report, 1141
Artificial neural network, trauma patient survival and, development and validation of, 212
Atrial fibrillation, cardioversion of, after blunt chest trauma, case report, 342
Avulsion, of inferior epigastric artery, pubic rami fractures and, case report, 750
Axonal injury, diffuse, MRI prognostic value in, 1071
Azygous vein trauma, blunt, CT diagnosis, case report and literature review, 776

Bacteria, pathogenic, in intensive care units of a single hospital, antibiotic susceptibility and, 638
Basal states, endothelin-1 role in, 314
Bax protein, lung apoptosis by, by Bax protein upregulation, lactated Ringer's solution and hetastarch and, 47
Bladder rupture, intraperitoneal, diagnostic peritoneal lavage as indicator of, case report, 946
Blood loss
  fibrin sealant foam effects, liver injury, 246
  minimization in burn surgery, 1034
Blood transfusion, exsanguinating coagulopathy and, field surgical hospital in postwar Kosovo, case report, 145
Blunt trauma
  abdominal
    emergent extra-abdominal surgery, abdominal screening in, 195
    small bowel trauma and, diagnosis, management and outcome of, 606
  aortic arch branches, autopsy study, 696
  azygous vein, CT diagnosis of, case report and literature review, 776
  bilateral carotid arteries, angioplasty and stenting effects, case report and literature review, 784
  bilateral traumatic hip joint dislocation, case report and literature review, 336
  chest
    cardioversion of atrial fibrillation after, case report, 342
    endogenous adenosine and secondary injury after, 892
  initial clinical decision making in, 496
  coronary arteries and pulmonary artery, case report in a child, 550
  diaphragmatic hernia presenting 50 years after, case report, 156
  esophagus and trachea, gastric pull-up for esophageal reconstruction in, case report, 563
  gastric pneumatosis and hepatoportal venous gas in, case report, 951
  head
    periportal tracking and myoglobinuria role detecting unsuspected child abuse, case report, 348
    projectile impact on protected head, 923
  kidney, nonoperative management in multisystem trauma, 56
  liver
    contrast media pooling on CT scan, classification and treatment, 1083
    grade V, predictors of operative mortality, 886
    little/no intraperitoneal fluid on CT scan and, 505
    nonoperative management in multisystem trauma, 56
    treatment of, 722
  pediatric trauma centers effects on mortality rates after, 237
  pneumoperitoneum and pneumoretroperitoneum in, case report, 565
  during pregnancy, outcome predictors, 18
  rib fractures, left ventricle lacerations from, case reprot, 771
  spleen
    little/no intraperitoneal fluid on CT scan and, 505
    nonoperative management in multisystem trauma, 56
    nonoperative management of, multi-institutional study, 177
  thoracic aorta, autopsy study, 696
  thoracic esophageal perforation secondary to, case report, 1129
  trauma system effects on mortality, New York State, 63
  venous thromboembolism after, long-term follow-up after vena cava filter placement, 839
Body surface area, hand growth and, hand length as treatment guide in pediatric trauma patient, 457
Bone defects, major, in fractures, management in children, case report, 1123
Bone loss, diaphysial, massive, regeneration and overgrowth after, case report, 559
Book reviews
  Atlas of Hand Surgery, 1156
  Five Minute Emergency Medicine Consult, 982
  Save Lives, Save Limbs, 1157
Brain injury
  facial fracture and, case review, 420

infratentorial traumatic hemorrhage, Glasgow Coma Scale as outcome predictor in, 1076
traumatic
cerebral perfusion pressure relation to survival, children, 654
disability and community integration determinants after, injury severity variables and, 411
midline shift after, pathophysiologic implications of, 1
violent, risk factors and injury severity and mortality associations, 404
Burn injuries
excessive resuscitation in (editorial), 567
to head, psychological adjustment in children with, 1040
hepatic ischemia after, 101
hypermetabolism after, enteral nutrition and wound excision/closure effects on, 667
infection
electrolyzed oxidized water irrigation effects, 511
local antibodies and systemic antibiotics synergistic protection effects against, 873
intra-abdominal hypertension and abdominal compartment syndrome in, 387
mucosal lymphocyte apoptosis after, 710
nitric oxide synthase inhibitor effects on, 327
prostaglandin E_2 synthesis and metabolism in, review article, 1147
resuscitation, saline dextran effects on fluid sparing, 251
severe, glucose kinetics influence on plasma lactate levels and energy expenditure, 673
surgery for, blood loss minimization in, 1034
work-related, epidemiology of, 1045

Calcanectomy, hindfoot restoration after, case report, 331
Carbon monoxide, blood carboxyhemoglobin half-life after exposure to, 126
Carboxyhemoglobin, blood, after carbon monoxide exposure, 126
Cardiopulmonary bypass, left atrial cannulation for, atrial thrombus after, case report, 345
Cardiovascular function, left ventricular power output maintenance during resuscitation, acidosis and posttraumatic shock effects, 26
Carotid artery
blunt trauma, angioplasty and stenting effects, case report and literature review, 784
esophagus and, gunshot wounds to, sternocleidomastoid muscle flap in, 815
Caspase, IL-18 processing and, sepsis effects on, in severe injury, 11
Casualty, battlefield, amputation and, 930
Causalgia, sympathectomy for, military injuries and, 266
CD18, monoclonal antibody against, in traumatic hemorrhagic shock, 611
Cerebral blood flow, midline shift after severe head injury, pathophysiologic implications of, 1
Cerebral infarction, posttraumatic, left atrial myxoma and, case report, 138
Cerebral perfusion pressure, relation to survival, traumatic brain-injured children, 654
Cervical spine injuries
acute, evaluation of, management algorithm for, 450
gunshot wounds to head and, retrospective study and literature review, 860
unstable, evaluation, 6-year study, 76
Chest trauma
blunt
cardioversion of atrial fibrillation after, case report, 342
endogenous adenosine and secondary injury after, 892
initial clinical decision making in, 496
impalement injury, management of, case report, 1135
severe, resuscitation with hemoglobin-based oxygen-carrying solutions, comparison study, 200
traumatic extrapleural hematoma, classification and significance of, 286
Children
blunt trauma to pulmonary artery and coronary arteries, case report, 550
burn injuries to head, psychological adjustment in children with, 1040
falls from windows, epidemiology, 477
hand length as treatment guide in pediatric trauma patient, 457
motor vehicle crash ejection, risk factors and mortality predictors in, 864
multiple trauma, trauma score prognostic value in, 729
pediatric trauma centers effects on mortality rates, 237
tracheostomy in, 483
traumatic brain injury, cerebral perfusion pressure relation to survival in, 654
Coagulopathy
disseminated intravascular. *see* Disseminated intravascular coagulopathy
exsanguinating, whole blood transfusion for, field surgical hospital in postwar Kosovo, case report, 145
Colon injuries
penetrating, ostomy as posttraumatic infection risk factor, 628
traumatic hematoma, case report, 1155
Combat casualties, on urban battlefield in Somalia, comparison with Vietnam casualties, 515
Commotio cordis, prevention in baseball, chest protector evaluation, 1023
Computed tomography
abdominal, occult pneumothoraces detection on, 281
helical, mediastinal gunshot wound evaluation, 689
Continence, restoration after shotgun injury to anus, case report, 954
Contrast media, pooling on CT scan, in blunt liver trauma, classification and treatment, 1083
Coronary arteries, blunt trauma to, case report in a child, 550
Corpora cavernosa rupture, complete urethral disruption and, case report, 339
Cost factors, posttraumatic venous thromboembolism, methods for prevention, cost-effectiveness analysis, 1059
Critical illness
intra-abdominal hypertension, abdominal perfusion pressure role in assessment of, 621
Sickness Impact Profile Score vs. modified short-form survey for functional outcome assessment, 737
Cubitus varus, French vs. dome osteotomy for correction, 717
Cytokines, acute respiratory distress syndrome, posttrauma, oxygen debt role in predicting, 392

Dextran, saline, fluid sparing effects, burn resuscitation and, 251
Diagnosis
blunt azygous vein trauma, case report and literature review, 776
cervical spine injury, unstable, 76
intraperitoneal bladder rupture, peritoneal lavage and, case report, 946
missed injuries in multiple trauma, 600
Diaphragm, hernia, presenting 50 years after blunt trauma, case report, 156
Diaphragmatic hernia, presenting 50 years after blunt trauma, case report, 156
Diaphysial bone loss, massive, regeneration and overgrowth after, case report, 559
Disability, determinants of, after lower extremity fracture, 1002
Dislocation, hip joints, bilateral traumatic, case report and literature review, 336
Disseminated intravascular coagulation, in head injury, neutrophil elastase role, 87
Duodenum, intramural hematoma of, obstructive jaundice and pancreatitis resulting from, deferred laparotomy for, case report, 160

Eastern Association for the Surgery of Trauma
presidential address, 171
salary survey, 833
14th annual scientific meeting, abstracts, S1
Elbow
dislocation
closed, brachial artery transection after (letter), 572
lateral humeral condyle fracture and (letter), 792
fracture, high-energy, hybrid external fixation effects, 1017
Elderly
penetrating trauma prognosis in, comparison with younger patients, 190
survival after trauma, 470
Embolization
air pellet, after penetrating cardiac injury, case report, 774
arterial, unstable pelvic fracture and, mortality after, blood transfusion as predictive factor, 71

Endothelin-1, role in basal states, 314
Enterocolitis, neutropenic, during antibiotic therapy for osteomyelitis, case report, 760
Enterotoxin, monocytes tolerant to, 806
Epidemiology
  falls from windows, children, 477
  maxillofacial injuries, at trauma hospitals, 425
  work-related burn injuries, 1045
Epigastrium, airbag injury, small bowel necrosis after early postoperative jejunal tube feeling in trauma patient, case report, 163
Esophagus
  thoracic esophageal perforation, secondary to blunt trauma, case report, 1129
  trachea and, blunt trauma to, gastric pull-up for esophageal reconstruction in, case report, 563
Experitoneal injuries, abdominal compartment syndrome and, case reprots, 744
Extracorporeal membrane oxygenation, inhaled nitric oxide and, in multiple truama patient, case report, 1126
Eye injuries
  burns, work-related, epidemiology of, 1045
  penetrating, tentorium leaves splitting, case report, 166

Facial fracture, acute life-threatening injuries in, case review, 420
Fall injuries, from windows, children, epidemiology, 477
Fas ligand signaling, mucosal lymphocyte apoptosis after burn injuries and, 710
Fat embolism syndrome, pathophysiologic mechanisms of, 320
Femoral shaft fractures, intramedullary nailing, musculoskeletal deficits after, 446
Femur fractures
  medullary reaming, innovations in, 440
  pertrochanteric, gliding mechanism obstruction of dynamic hip screw, 995
  supracondylar, treatment of (letter), 360
Fetus, trauma during pregnancy, adverse outcome predictors, 18
Fibrin sealant foam, blood loss reduction, liver injury, 246
Firearm availability, homicide rates and, high-income countries, 985
Fixation
  closed, humeral shaft fractures, intramedullary Kirschner wires and, 81
  external, pelvic ring disruptions, 989
  hybrid external, high-energy elbow fracture and, 1017
  transperitoneal screw, sacroiliac joint, case report, 152
  volar fragments of radius fractures, flexor carpi radialis tendon and, 433
Foot, calcanectomy, hindfoot restoration after, case report, 331
Formyl-methionyl leucyl phenylalanine, intestinal mucosal barrier disruption and, 306
Fracture-dislocation, pelvic, unstable, sacroiliac joint dislocation and, transperitoneal screw fixation of, case report, 152
Fractures. *see also* specific site
  fluids, oxidative burst by (letter), 167
  major bone defect in, management in children, case report, 1123

Gastrointestinal tract, systemic inflammatory response syndrome before multisystem organ failure and, 306
Glasgow Coma Scale, outcome predictor in infratentorial traumatic brain hemorrhage, 1076
Glucose kinetics, plasma lactate levels and energy expenditure, in severe burn injuries, 673
Glucose-6-phosphatase, gene expression in sepsis, 38
G-protein receptor, responses in trauma neutrophils, 1096
Gunshot wounds
  carotid artery/trachea and esophagus, sternocleidomastoid muscle flap in, 815
  duplicate ureter, ureteroureterostomy treatment, case report, 149
  elderly patients, prognosis, comparison with younger patients, 190
  to head, cervical spinal injuries and, retrospective study and literature review, 860
  mediastinal, helical CT evaluation of, 689
  MRI assessment, 704
  shotgun injury to anus, continence restoration after, case report, 954

Hand, length, as treatment guide in pediatric trauma patient, 457
Harborview Assessment for Risk of Mortality, injury severity assessment, 530
Head injuries
  blunt
    periportal tracking and myoglobinuria role detecting unsuspected child abuse, case report, 348
    projectile impact on protected head, 923
  burn injuries, psychological adjustment in children with, 1040
  disseminated intravascular coagulation and multiple organ failure in, neutrophil elastase role in, 87
  gunshot wounds, cervical spinal injuries and, retrospective study and literature review, 860
  quantitative analysis using T2*-weighted gradient-echo imaging, 272
  severe
    infection and leukocyte count in, after mild hypothermia treatment, 912
    midline shift after, pathophysiologic implications of, 1
    pediatric trauma centers effects on mortality rates after, 237
    prehospital intubation in, 1065
    tracheostomy in children and, 483
Health care, quality of, administrative data accuracy and trauma care, 679
Heart injury, penetrating, air pellet embolization after, case report, 774
Hematoma
  intramural, duodenal, obstructive jaundice and pancreatitis resulting from, deferred laparotomy for, case report, 160
  subdural, midline shift after severe head injury, pathophysiologic implications of, 1
  traumatic colonic, case report, 1155
  traumatic extrapleural, classification and significance of, 286
Hemodilution, intestinal perfusion and intramucosal pH after shock, 800
Hemopneumatocele, giant posttraumatic, nonoperative management of, case report, 1132
Hemoptysis, lung isolation and lung preservation in, 899
Hemorrhage
  detection using quantitative analysis using T2*-weighted gradient-echo imaging, 272
  fibrin sealant foam effects on control of, liver injury, 246
  infratentorial traumatic brain, Glasgow Coma Scale prediction of outcome, 1076
  occult, systemic look for (letter), 572
  pelvic, unstable pelvic fracture and, mortality after embolization, blood transfusion as predictive factor, 71
  trauma, hepatic depression after, oxygen radicals role in, 879
Hemosuccus pancreaticus, after penetrating abdominal trauma, case report, 948
Hepatoportal venous gas, gastric pneumatosis and, in blunt trauma, case report, 951
Herpes simplex virus, pneumonia caused by, in trauma patients, case report and literature review, 547
Hetastarch, lung apoptosis by Bax protein upregulation, in hemorrhagic shock, rats, 47
Hip, bilateral asymmetric dislocation of, case report, 336
Hollow viscus trauma, penetrating, perioperative antibiotic effects, 822
Homicide rates, firearm availability and, high-income countries, 985
Humerus
  condyle fracture, lateral, elbow dislocation and (letter), 792
  fracture, rotational alignment after closed locked nailing, 854
  shaft fractures
    closed fixation using intramedullary Kirschner wires, 81
    plated, immediate weightbearing effects on, 278
Hypermetabolism, burn injuries and, enteral nutrition and wound excision/closure effects on, 667
Hypertension
  intra-abdominal
    abdominal compartment syndrome and, in burn patients, 387
    abdominal perfusion pressure role in assessment, 621
  posttraumatic renovascular, major renovascular injuries and, 1116
Hypothermia, mild, severe head injury and, infection and leukocyte count in, 912

Imaging, T2*-weighted gradient-echo, head injury evaluation, 272
Immune function, dietary lipids effects, 109
Immunosuppression, meshed composite skin graft applied without, healing and persistence of, 115
Impalement injury, thoracoabdominal, management of, case report, 1135
Infection
  ostomy as risk factor for, in penetrating colonic trauma, 628
  outcome, dietary lipids effects, 109
Inferior epigastric artery, avulsion of pubic branch, pubic rami fractures and, case report, 750
Injury, *see also* specific type or site
  outcome, dietary lipids effects, 109
  pediatric trauma centers effects on mortality rates after, 237
  posttraumatic venous thromboembolism, methods for prevention, cost-effectiveness analysis, 1059
  severe, caspase-dependent IL-18 processing, sepsis effects on, 11
  severity of
    Harborview Assessment for Risk of Mortality, role in assessment, 530
    systemic inflammatory response syndrome as predictor of mortality and length of stay, 647
    traumatic brain injury, disability and community integration determinants after, injury severity varibles and, 411
    violent traumatic brain injury, risk factors and, 404
  venous thromboembolism after, prevention strategies, 132, 140
Injury Severity Score, artificial neural network development and validation, trauma patient survival and, 212
Interleukin-18, caspase-dependent processing, sepsis effects on, in severe injury, 11
Intestinal mucosal barrier disruption, formyl-methionyl leucyl phenylalanine role in, 306
Intra-abdominal pressure, abdominal compartment syndrome and, in burn patients, 387
Intracranial pressure, midline shift after severe head injury, pathophysiologic implications of, 1
Intramedullary K-wires, closed fixation of humeral shaft fractures, 81
Intramedullary nailing, femoral shaft fractures, musculoskeletal deficits after, 446
Intubation, prehospital, severe head injury and, 1065
Invasive procedures, family presence during (letter), 1158
Irrigation, electrolyzed oxidized water, burn wound infection effects, 511
Ischemia
  gut, reperfusion and, multiple organ failure after trauma and hemorrhagic shock, 232
  hepatic, after burn and sepsis, multiple organ failure and, 101

Kidney
  blunt trauma, nonoperative management in multisystem trauma, 56
  dysfunction, after major renovascular injuries, 1116

Labor, preterm, blunt trauma during pregnancy and, outcome predictors, 18
Law enforcement, special operations units, medical support for (letter), 789
Leukocyte adherence, WEB 2086 effects on, in response to hemorrhagic shock, 1102
Life support, advanced vs. basic, trauma patient in prehospital setting, 584
Life-threatening injuries, facial fracture and, case review, 420
Limb immobilization, microciruculation observations and, hindleg soft tissues and, 1108
Lipids, dietary, immune function and injury/infection outcome, 109
Lipopolysaccharide, pretreatment, NF-κB alterations and, 298
Liver
  blunt trauma
    contrast media pooling on CT scan, classification and treatment, 1083
    grade V, predictors of operative mortality, 886
    little/no intraperitoneal fluid on CT scan and, 505
    nonoperative management in multisystem trauma, 56
    treatment of, 722
  glucose-6-phosphatase gene expression, sepsis and, 38
  injury
    fibrin sealant foam effects on blood loss, 246
    pediatric trauma centers effects on mortality rates after, 237
Lower extremity
  amputations, calcaneal fillet of sole flap in, case report, 960
  fracture, disability determinants after, 1002
  pseudoaneurysm of, without fracture, percutaneous ultrasound-guided thrombin injection effects, 818
Lumbosacral spine, intrapelvic intrusion of, in sacral spine fracture, case report and literature review, 754
Lung
  apoptosis, by Bax protein upregulation, lactated Ringer's solution and hetastarch and, in hemorrhagic shock, rats, 47
  isolation, in thoracjc trauma, case report, 940
  isolation and preservation, in hemoptysis, 899
Lung injuries
  acute, neutrophils role in, 320
  ventilator-induced, rate and inspiratory flow effects on, 903

Magnetic resonance imaging
  diffuse axonal injury, prognostic value, 1071
  gunshot wound assessment, 704
Mandibular condyle, traumatic dislocation into temporal fossa, child, case report, 764
Maxillofacial injuries
  epidemiology at trauma hospitals, 425
  intracranial malposition of nasopharyngeal airway after, case report, 967
  mandibular condyle, traumatic dislocation into temporal fossa, child, case report, 764
Mechanical ventilation
  lung injury induced by, rate and inspiratory flow effects on, 903
  pulmonary failure and, weaning in non-ICU setting, 224
Mediastinum
  gunshot wounds, helical CT evaluation, 689
  penetrating trauma, innominate artery, left common carotid artery, trachea, and esophagus, case report, 780
Medical education, resident training and, 575
Medullary reaming, innovations in, femur fractures and, 440
Meniscoplasty, osteochondritis dissecans of bilateral lateral femoral condyle and discoid meniscus, case report, 964
Military injuries, sympathectomy for causalgia and, 266
Missile wounds, localization of retained fragments in, 1052
Monocytes, enterotoxin-tolerant, 806
Mortality
  abdominal compartment syndrome, extraperitoneal injuries and, case reports, 744
  blunt liver trauma, grade V, predictors of operative mortality, 886
  blunt trauma and, trauma system maturation effects on, New York State, 63
  elderly survival after trauma, 470
  falls from windows, children, 477
  Harborview Assessment for Risk of Mortality, injury severity assessment, 530
  injury-related, state trauma system effects on reducing (letter), 168
  pediatric trauma centers effects on, 237
  violent traumatic brain injury, risk factors and, 404
Motor vehicle crashes
  bilateral traumatic hip joint dislocation, case report and literature review, 336
  ejection, risk factors and mortality predictors in children after, 864
  maxillofacial injuries and, 425
  small bowel necrosis after early postoperative jejunal tube feeling in trauma patient, case report, 163
  speeding and, unmanned police car for reduction of, 43
  tracheal bronchus, case report and literature review, 943
Multiple organ dysfunction syndrome, lipopolysaccharide pretreatment effects on NF-κB alterations and, 298
Multiple organ failure
  gut ischemia and reperfusion, after trauma and hemorrhagic shock, 232
  in head injury, neutrophil elastase role, 87
  hemodilution effects on intestinal perfusion

and intramucosal pH after shock and, 800
hepatic blood flow and oxygen consumption after burn and sepsis and, 101
intestinal mucosal barrier disruption and, formyl-methionyl leucyl phenylalanine role in, 306
Multiple trauma
extracorporeal membrane oxygenation and inhaled nitric oxide effects, case report, 1126
hepatic, splenic, and renal injury management, nonoperative, 56
missed injuries in, 600
pulmonary failure, mechanical ventilation weaning in non-ICU setting, 224
sepsis and, antithrombin therapy effects, current opinions, 979
trauma score prognostic value in children and, 729
Musculoskeletal deficits, after intramedullary nailing for femoral shaft fractures, 446
Musculoskeletal trauma, outcome after, regional hospital, 461
Myoglobinuria, periportal tracking and, unsuspected child abuse detection, case report, 348
Myxoma, left atrial, posttraumatic cerebral infarction caused by, case report, 138

Nailing, closed, humerus fracture, rotational alignment after, 854
Nasopharyngeal airway, intracranial malposition of, after severe maxillofacial trauma, case report, 967
Necrosis, small bowel, early postoperative jejunal tube feeling in trauma patient and, case report, 163
Nerve palsy, hypoglossal, occipital condyle fracture with, case report, 1144
Neutrophil elastase, multiple organ failure and disseminated intravascular coagulation in head injury and, 87
Neutrophils
acute lung injury and, 320
trauma, G-protein receptor responses in, 1096
Nitric oxide
inhaled, extracorporeal membrane oxygenation and, in multiple trauma patient, case report, 1126
severe chest trauma resuscitation and, 200
Nitric oxide synthase inhibitor, burn injuries effects, 327
Nitroprusside, resuscitation in major torso trauma, 1089

Occipital condyle fracture, hypoglossal nerve palsy and, case report, 1144
Occult injuries, pneumothoraces, abdominal computed tomography detection of, 281
Orbitocranial trauma, successful recovery after, 788
Organ failure, septic, caspase-dependent IL-18 processing and, 11
Osteomyelitis, antibiotic therapy for, neutropenic enterocolitis during, case report, 760
Osteotomy, French vs. dome, cubitus varus correction, 717
Ostomy, infection risk factor in penetrating colonic injuries, 628
Outcomes
disability determinants after lower extremity fracture, 1002
functional assessment, Sickness Impact Profile Score vs. modified short-form survey, 737
infection/injury, dietary lipids effects, 109
major renovascular injuries, 1116
musculoskeletal trauma, regional hospital, 461
severe head injury, prehospital intubation effects, 1065
small bowel trauma and other intra-abdominal injuries, diagnosis, management and outcome of, 606
systemic inflammatory response syndrome as predictor of mortality and length of stay, trauma patients, 647
trauma system maturation, mortality effects in blunt trauma, New York State, 63
traumatic brain injury, disability and community integration determinants after, injury severity variables and, 411
Oxygen, metabolic rate of, midline shift after severe head injury, pathophysiologic implications of, 1
Oxygen radicals, role in hepatic depression after trauma hemorrhage, 879

Pelvic ring disruptions, external fixation effects, 989
Pelvis, fracture, unstable, mortality after arterial embolization, blood transfusion as predictive factor, 71
Penetrating trauma
abdominal, hemosuccus pancreaticus after, case report, 948
aortic arch branches, autopsy study, 696
cardiac, air pellet embolization after, case report, 774
carotid artery/trachea and esophagus, gunshot wounds, sternocleidomastoid muscle flap in, 815
colonic, ostomy as infection risk factor in, 628
elderly patients, prognosis, comparison with younger patients, 190
gunshot wounds
to duplicate ureter, ureteroureterostomy treatment, case report, 149
mediastinal, helical CT evaluation, 689
MRI assessment, 704
hollow viscus, perioperative antibiotic effects, 822
innominate artery, left common carotid artery, trachea, and esophagus, case report, 780
missile wounds, localization of retained fragments in, 1052
mortality, trauma system effects on reducing (letter), 168
orbital, tentorium leaves splitting, case report, 166
pediatric trauma centers effects on mortality rates after, 237
periclavicular, chest radiography, physical examination, and angiography role in management of, 1029
thoracic aorta, autopsy study, 696
thoracoabdominal impalement injury, management of, case report, 1135
Penis
fracture, complete urethral disruption and, case report, 339
sexually acquired vascular injuries of, review article, 351
Periclavicular trauma, penetrating, chest radiography, physical examination and angiography role in management, 1029
Pinning, transtendinous, volar fragments of radius fractures, flexor carpi radialis tendon and, 433
Pneumatoceles, posttraumatic, nonoperative management of, case report, 1132
Pneumatosis, gastric, hepatoportal venous gas and, in blunt trauma, case report, 951
Pneumonia, herpes simplex virus, in trauma patinets, case report and literature review, 547
Pneumoperitoneum, pneumoretroperitoneum and, in blunt trauma, case report, 565
Pneumothoraces, occult, detection on abdominal CT scans, 281
Police cars, decoy, speeding reduction effects and, 43
Polynitroxylation, severe chest trauma resuscitation and, 200
Pregnancy, trauma during, outcome predictors, 18
Prehospital care, collective review of advances, 969
Prostaglandin E_2 synthesis, and metabolism in burn injuries, review article, 1147
Pseudoaneurysm, of extremity without fracture, percutaneous ultrasound-guided thrombin injection effects, 818
Psychiatric disorders, trauma surgery and, incidence, length of stay, and costs, 487
Psychological adjustment, burn injuries to head, in children, 1040
Pulmonary artery, blunt trauma to, case report in a child, 550
Pulmonary contusion, resuscitation, hemoglobin-based oxygen-carrying solutions, comparison study, 200
Pulmonary failure, mechanical ventilation weaning in non-ICU setting, 224
Pulmonary injuries, facial fracture and, case review, 420

Quadriplegia, after upper extremity trauma, case report, 767
Quality of care, administrative data accuracy and trauma care, 679

Radiography
chest, penetrating periclavicular trauma and, 1029
retrograde venous air embolism, 569
Radius fractures, reduction and fixation of volar fragments of, flexor carpi radialis tendon and, 433
Reactive oxygen metabolites, severe chest trauma resuscitation and, 200

Reactive oxygen species, hepatic depression after trauma hemorrhage and, 879
Renovascular injuries, major, outcomes after, 1116
Residents, training of, 575
Respiratory distress syndrome, acute
posttrauma, oxygen debt role in predicting, 392
prone positioning in (letter), 791
Respiratory muscle fatigue, mechanical ventilation weaning in non-ICU setting and, 224
Resuscitation
excessive, burn and trauma patients, 567
family presence during (letter), 1158
hypertonic saline for, after hemorrhagic shock, 580
left ventricular power output maintenance during, acidosis and posttraumatic shock effects, 26
nitroprusside, major torso trauma and, 1089
severe chest trauma, hemoglobin-based oxygen-carrying solutions, comparison study, 200
starch-deferoxamine conjugate effects on Ca^{2+} uptake during, 291
trauma, collective review of advances, 969
Rib fractures, left ventricle lacerations from, after blunt trauma, case report, 771
Ringer's solution, lactated, lung apoptosis by Bax protein upregulation, in hemorrhagic shock, rats, 47

Sacral spine, fracture, intrapelvic intrusion of lumbosacral spine, case report and literature review, 754
Sacroiliac joint, transperitoneal screw fixation of, case report, 152
Saline, hypertonic, resuscitation after hemorrhagic shock, 580
Saline dextran, hypertonic, thermal injury resuscitation, peripheral and visceral edema and, 844
Sepsis
antithrombin therapy for, current opinions, 979
burn injuries and, electrolyzed oxidized water irrigation effects, 511
caspase-dependent IL-18 processing, severe injury and, 11
glucose-6-phosphatase gene expression in, 38
hepatic ischemia after, 101
lipopolysaccharide pretreatment effects on NF-κB alterations and, 298
Sexual intercourse, vascular injuries of penis and, review article, 351
Shock
hemorrhagic
hemodilution effects on intestinal perfusion and intramucosal pH after, 800
hypertonic saline for resuscitation after, 580
liver chemokine expression and neutrophil infiltration after, small molecule inhibitor, 92
lung apoptosis by Bax protein upregulation, lactated Ringer's solution and hetastarch and, 47
monoclonal antibody against CD18 in, 611
multiple organ failure, gut ischemia and reperfusion and, 232
starch-deferoxamine conjugate effects on Ca^{2+} uptake during, 291
WEB 2086 effects on leukocyte adherence in response to, 1102
posttraumatic, left ventricular power output maintenance during resuscitation and, 26
Shotgun wounds, elderly patients, prognosis, comparison with younger patients, 190
Sickness Impact Profile
disability determinants after lower extremity fracture, 1002
functional outcome assessment, comparison with modified short-form survey, 737
musculoskeletal trauma outcomes and, 461
Skeletal injuries, blunt chest trauma and, initial clinical decision making in, 496
Skin graft, meshed composite, healing and persistence of, 115
Skull fracture, occipital, sagittal sinus occlusion and, case report, 981
Small bowel trauma
diagnosis, management and outcome of, intra-abdominal injuries effects on, 606
entrapment and strangulation of, hyperextension/hyperflexion of lumbar vertebrae and, case rpoert, 958
stapled vs. hand sewn anastomoses in, 660
Smoke inhalation injury, blood carboxyhemoglobin half-life after exposure to carbon monoxide and, 126
Speeding, unmanned police car for reduction of, 43
Spleen, blunt trauma
little/no intraperitoneal fluid on CT scan and, 505
nonoperative management in multisystem trauma, 56
nonoperative management of, multi-institutional study, 177
pediatric trauma centers effects on mortality rates after, 237
Splenorrhaphy, blunt splenic trauma and, 177
Sports injuries, baseball, commotio cordis, chest protector evaluation, 1023
Stab wounds, elderly patients, prognosis, comparison with younger patients, 190
Starch-deferoxamine conjugate, effects on Ca^{2+} uptake during hemorrhagic shock and resuscitation, 291
Supracondylar fracture, of femur, treatment of (letter), 360
Surgery
ankle soft tissue reconstruction, extensor digitorum brevis rotational muscle flap for, 1012
bilateral below-knee amputation, prehospital, case report and literature review, 758
blunt liver trauma, grade V, predictors of operative mortality, 886
burn injuries, blood loss minimization in, 1034
calcanectomy, hindfoot restoration after, case report, 331
cervical spine injury, unstable, outcomes, 6-year study, 76
closed nailing, humerus fracture, rotational alignment after, 854
emergent extra-abdominal, abdominal screening in, 195
esophagus and trachea injuries, gastric pull-up for esophageal reconstruction in, case report
exsanguinating coagulopathy, blood transfusion for, field surgical hospital in postwar Kosovo, case report, 145
hollow viscus trauma, perioperative antibiotics and, 822
humeral shaft fracture, closed fixation of, intramedullary K-wires and, 81
lower extremity amputations, calcaneal fillet of sole flap in, case report, 960
osteotomy, French vs. dome, cubitus varus correction, 717
stapled vs. hand sewn anastomoses, in small bowel injuries, 660
thoracic, lung isolation in, case report, 940
trauma, psychiatric disorders and, incidence, length of stay, and costs, 487
Surgical specialties, trauma importance in, 171
Survival, trauma patients, artificial neural network development and validation, 212
Sympathectomy, causalgia, military injuries and, 266
Systemic inflammatory response syndrome, mortality and length of stay predictor, trauma patients, 647

Temporal artery, traumatic arteriovenous fistula of, case report, 359
Thermal injuries
hypertonic saline dextran resuscitation, peripheral and visceral edema and, 844
nitric oxide synthase inhibitor effects on, 327
Thoracic aorta, blunt/penetrating trauma of, autopsy study, 696
Thoracic artery injury, major torso trauma and, nitroprusside role in resuscitation, 1089
Thoracic esophageal perforation, secondary to blunt trauma, case report, 1129
Thoracic trauma
lung isolation in, case report, 940
occult pneumothoraces in, abdominal CT detection of, 281
Thoracoabdominal impalement injury, management of, case report, 1135
Thromboembolism, venous
after blunt trauma, long-term follow-up after vena cava filter placement, 839
posttraumatic, methods for prevention, cost-effectiveness analysis, 1059
prevention after injury, 132, 140
Torso trauma, major, nitroprusside role in resuscitation, 1089
Trachea, esophagus and, blunt trauma to, gastric pull-up for esophageal reconstruction in, case report, 563

Tracheal bronchus, case report and literature review, 943
Tracheostomy, in children, 483
Trauma. *see also* specific types
  advanced vs. basic life support for, meta-analysis and literature review, 584
  elderly patient survival after, 470
  hepatocyte apoptosis onset in, case report, 542
  multiple organ failure, gut ischemia and reperfusion and, 232
  during pregnancy, outcome predictors, 18
  quality of care, administrative data accuracy and, 679
  surgical specialties and, 171
Trauma and Injury Severity Score
  artificial neural network development and validation, trauma patient survival and, 212
  trauma system maturation effects on mortality in blunt trauma and, New York State, 63
Trauma Association of Canada, presidential address, 575
Trauma centers
  acute cervical spine injuries evaluation, management algorithm for, 450
  early transport to, trauma system maturation effects on mortality in blunt trauma and, New York State, 63
  maxillofacial injuries in, 425
  pediatric, mortality rates and, 237
Trauma score
  prognostic value, children with multiple trauma, 729
  traumatic brain injury, disability and community integration determinants after, injury severity variables and, 411
Trauma surgeons, salary survey, Eastern Association for the Surgery of Trauma, 833
Trauma surgery, psychiatric disorders and, incidence, length of stay, and costs, 487
Trauma system
  maturation of, mortality effects in blunt trauma, New York State, 63
  reducing injury-related mortality (letter), 168
Tunica albuginea rupture, complete urethral disruption and, case report, 339

Upper extremity, trauma, quadriplegia after, case report, 767
Ureter, duplicate, gunshot wound to, ureteroureterostomy treatment, case report, 149
Ureteroureterostomy, gunshot wound to duplicate ureter and, case report, 149
Urethra, penile fracture with complete rupture of, case report, 339
Uterine contractions, blunt trauma during pregnancy and, outcome predictors, 18

Vena cava filter
  long-term follow-up, 839
  vascular access procedures in, case report, 553
  venous thromboembolism prevention after injury and, 132, 140
Venous air embolism, retrograde, radiographic view of, 569
Vertebral artery, traumatic arteriovenous fistula, case report, 1141
Violence, traumatic brain injury, risk factors and injury severity and mortality associations, 404

War-related trauma
  amputation and, 930
  exsanguinating coagulopathy, blood transfusion for, field surgical hospital in postwar Kosovo, case report, 145
WEB 2086, leukocyte adherence effects in response to hemorrhagic shock, 1102
Weightbearing, immediate, plated humeral shaft fractures and, 278
Western Trauma Association, presidential address, 795
Workplace injuries, burns, epidemiology of, 1045
